

**CBP**  
INDUSTRIES PVT.LTD

ISO 9001:2015  
Quality Management System

# ABOUT US

CBP Industries Pvt. Ltd. is a highly successful manufacturing company with enviable expertise and experience in project engineering of Electrical Instrumentation Control Systems and Enclosure Boxes. We have considerable expertise in product innovation and are in customer service since 1991.

We have now successfully established ourselves as one of the leading electrical control panel manufacturers. We are a Pune based company, presently engaged in the main business of design, manufacturing, supply of various types of Control panels, Junction Boxes, Pneumatic Panels, Wiring Harnesses and Instrumentation. We use fully indigenous technology developed and perfected in-house.

Since 1991, we are serving as '**ASEA ENGINEERING**'. We have grown into a Pvt Ltd company in 2018. Now known as '**CBP INDUSTRIES Pvt Ltd**' headed by **Mr C.B Patil and Mrs S.C Patil**. Advancements in technology have enabled us to rethink of how products are designed, made, processed, packaged, transported and sold. We have built our reputation with consistent performance and reliable delivery of high-quality electrical products. Our designing products are based on many years of experience in development and manufacturing. Ensuring that our customers can trust us to act responsibly and to deliver safe and effective solutions at affordable costs, assures our best possible services & hassle-free solutions for long term operation.

# OUR VISION

Our client's partnerships are the most valued, we aim to go above and beyond to exceed our client expectations.

# OUR MISSION

We adore what we do and work passionately to make our clients attain full potential. Our founding values of Service, quality and reliability continue to guide us in everything we do. Our ethos of social responsibility and sustainability inspires us constantly to improve in all aspects of our business.

# ABOUT THE DIRECTOR

Mr C. B Patil pursued his electrical engineering from College of Engineering Pune (COEP) in the year 1981. While working with Kirloskar Cummins, he developed the urge of starting a venture of his own. The result of this, ASEA Engineering was started in the year 1991. Mr. Patil had the vision to expand the business by materializing every opportunity encountered and keeping pace with developments happening in the industry.

As a result of his vision and determination CBP Industries Pvt Ltd was established in the year 2018. He believes the success of any organization is the collective effort and discipline of each and every member of the unit as whole.

# OUR PRODUCTS

## Electrical Control Panels

- APFC Panel
- MCC Panel
- PLC Panel
- PCC Panel

## Enclosure Boxes/ MS Boxes

- 200\*200\*80mm
- 300\*300\*120mm
- 400\*400\*150mm
- 500\*500\*200mm
- 600\*400\*200mm

## Powder Coating

This process involves a Pretreatment with 7 tank process and a Thickness Test.

# OUR CONTROL

## Raw Material

The Raw material used in the production of our products undergoes a stringent quality check in the factory. Inward inspection, quality check, operational tests are conducted so as to meet highest quality standards. We use mostly ISO, ISI and CE Certified products for manufacturing.

## Fabrication

Fabrication undergoes following tests:

- The Gauge Check for sheets
- Dimensional test

Fabrication is the building of metal structures by cutting, bending, and assembling processes. It is a value added process that involves the creation of machines, parts, and structures from various raw materials. Sheet metal fabrication generally involves cutting and burning the sheet metal. The finishing touches are placed according to the customer's specifications and the piece is inspected and shipped.

# OUR CLIENTS

- Aquarius Engineers Pvt Ltd, Kothrud.
- Cummins Power Generation Ltd., U.K.
- Cummins India Ltd, Kothrud.
- Cogeme Precision Parts India Pvt Ltd, Chakan.
- Hodek Vibration Technologies Pvt Ltd, Sahajpur
- Kirloskar Oil Engines Ltd., Khadki
- Readymix construction Machinery Pvt. Ltd
- Putzmeister Concrete Machines Private Limited.
- Webster Environmental Solutions  
and more...

## Our Clients

## Control Panel

We make sure that all our control panels undergo the following tests for high safety:

- Visual inspection
- Three phase power test
- Functional test
- 1000 V AC megger test for insulation resistance.

## Quality Management

Our quality management ensures the product consistency in four main components:

- Quality Planning
- Quality Assurance
- Quality Control
- Quality Improvement

## QUALITY OBJECTIVE

Our quality objectives are focused on the five important principles mentioned below:

- Perfect quality standards achieved each time.
- Ensuring quality product delivery within time.
- Ensure employee skill development and engagement in quality objectives through periodic trainings.

## QUALITY POLICY

"**CBP Industries** is dedicated towards customer's satisfaction through continual improvement. We are in business to satisfy our customer by delivering product on time at competitive price, quality and service."
